FFL89 Super Bowl rules

SUPER BOWL: All teams are included. Roster limits are 20 players. Players can be selected by any FFL team from the NFL playoff teams. **IMPORTANT:** You must pick a starting roster: 1QB, 2RB's, 3WR's, 1TE, 1PK, 1D/ST (not split). DT/ST can be split for your lineup. The rest up to 20 is of your choice. Players do not have to be playing in the first playoff week. Rosters are due by 8pm the Thursday before the 1st playoff game. **Super Bowl Rosters:** Rosters will be sent by email to the Super Bowl Coordinator thru your personal email. Rosters will then be posted after the deadline, as soon as possible, on the Super Bowl site. The coordinator will be in charge of imposing roster penalties. **Lineups are due at 1 hour before the first game of the week. Players are locked 1 hour before the first game of the week. Lineups will be shown to all owners at the start of the first game of the week.** Late lineups will be the lineup from the week before. If it's the first week your lineup will not count and you will receive 0 points for that week. Illegal rosters/lineups score zero points, plus any penalty. **Owners submit their lineups to the SB coordinator.** Owners must submit their own lineups every week. The league can not do this for players left playing in the SB.

ROSTER PENALTY's: If a roster is submitted with errors (under/ over the 20 player limit or does not have a starting lineup) you will have a chance to correct the error with the league if it's after the roster deadline (date and time) and provided it's corrected before the 1 hour before the first game of the week. The penalty for an incomplete starting roster error will be 20 points subtracted from your first week's total points. If not corrected before the first game of the week you will receive 0 points for that week and can change your roster to correct the errors for the following (second) week and have 20 points subtracted for that week. Rosters that contain less than 20 players will have a chance to add players after the roster deadline, (with a 20 point penalty) no penalty if you do not add players to your roster to have 20 players. No players can be added once week 1 (Wild card lineup deadline) begins. Rosters over the 20 player limit can be corrected (when noticed) before the 1st game of the Wild Card with no penalty. After the 20 point penalty will be imposed and continue each week until corrected.

SUPER BOWL Coordinator: Will be a member of the officers, elected the same as the rest of the officers. Handle all the Super Bowl rosters, scoring and post scores on the internet. The coordinator will be in charge of imposing roster penalties. **The league will develop a plan for the Super scoring site.**
